DYNAMITE RACE HORSES

This information was generated by Gold Director Rowan Emrys, C.N.M.T., an independent distributor for DYNAMITE® Specialty Products. The views expressed herein do not necessarily reflect those of DYNAMITE® MARKETING, Inc. No claims are expressed or implied, and this information is not intended to diagnose,

We feel so lucky to have found **Dynamite** through Rowan Emrys back in September of 1999. It has really enhanced our TB racing and breeding horses making coats shiny, eyes clearer and the horses generally healthier and obviously nutritionally fit.

Darrell says, "All of them are in excellent condition: their hooves are incredible, my racers have more energy and oomph, my broodmares are having large babies easier than ever and the legs on the babies (bone mass) is actually larger and more dense meaning they should be able to avoid so many of the problems that plague young race horses. They put friends' foals to shame." And Henrietta agrees, "I can't believe the difference **Dynamite** has made; they are shedding their winter coats faster, they are calmer and more relaxed, and just plain look better overall."

All the horses get almost free choice mountain grass hay and/or pasture, the four **Free Choice** minerals of **NTM Salt, IZmine, 1:1 & 2:1**, plus **DynaPro, TNT, PGR** with added **HES** if they need it, plus **Breeder Pac** regularly for the broodmares. Our 19 yr old broodmare, Silver Glider, had trouble last year with her 11th foal. This year, with her second baby for us and after 2 years on the **Dynamite** program, she had no problem at all with a very large baby. Here's a

photo of her taken at CSU when the filly was only 3 days old and dancing around. She was the largest and healthiest baby they had down there. Glidininthecash, Glider's yearling son and full brother to the new filly, is shown with trainer Shelly. And a two year old we bought last year, Woody's Dream, is shown digging into his **Dynamite** chow.

A horse we brought in just last week from Pennsylvania had really, really dull eyes and in less than a week, they are as shiny as can be—hopefully her coat will shine up quickly, too, to match all the others. We take these glossy coats so much for granted that it is startling to see a regular coat which now looks so dull.

Of course we also use **Tranquil, Release, Wound Balm, Wound Salve, Hiscorbadyne, Super Stress**, and almost all of the other products including **PreRace Pac**, too, when necessary, but that is another testimonial! Our horses are real special to us, and **Dynamite** is just as special. We even went away from it for a bit, but came right back because **Dynamite** works so well. In fact it works better than anything else we have tried and absolutely nothing can compare.

Directors Darrell & Henrietta Perry, Nunn CO

Perry's Thoroughbred Racing, perryshorses@prodigy.net

Perry's Thoroughbred Racing has been in professional existence since 2001 (although in horses in general since 1947) breeding and racing fine Kentucky, Colorado and New Mexico-bred's. A small operation, 10 horses right now, we strive for quality and get it!
