DYNAMITE Makes a Difference

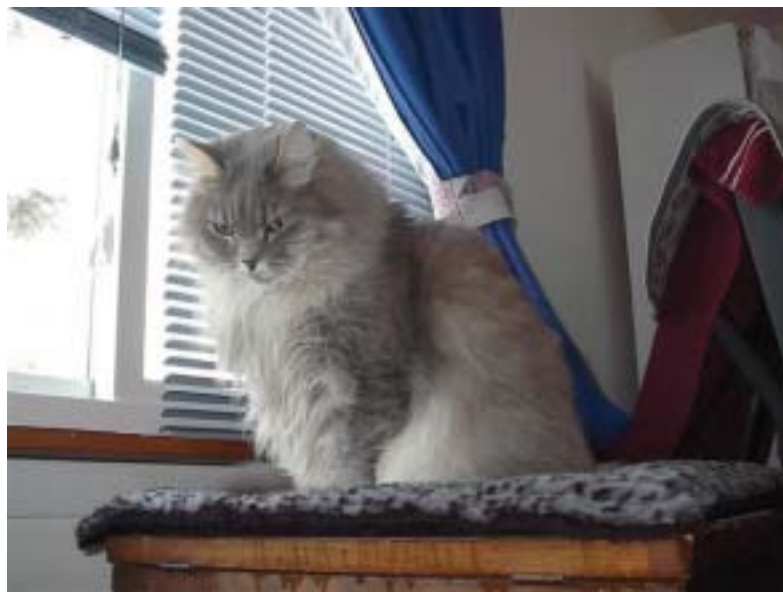

In Loving Memory...

We at Dynamite are very sad to hear of the passing of Fressa in February. She was such a beautiful cat and we were pleased to be able to use her in many of our promotional materials. We received the news in the following email:

Thank you Dynamite, for the wonderful cat products that helped my Fressa (catalogue and brochure “cover girl”) while she was alive. The **Canned Cat Food** and **Liquid Purrrformance™** were vital for this feline princess pictured here in her 16th or 17th year.

Fressa began to fail a year and half ago, but the last month and half, she really went down. Her body just could not go anymore and she passed away very peacefully Feb. 10 at the age of 20½.

The reason it was so peaceful was due to the combination of **Tranquil™** and **Release™** internally (by a little syringe) and **Release™** externally (I sprayed it on my hands when I petted her and on her blanket). These amazing products enabled her to stop the almost non-stop yowling that was keeping everyone

up at night, allowing her (and me and “our” dog Taz) to rest peacefully for the last few weeks. This is the second time that I have found that Dynamite can help both the living and the dying processes.

- CO Supervisor Donna Covington, CMT

I thought I would share some early pictures of our last year’s foal, S A Khompadre, aka Hemi. He is a 4th generation Dynamite baby. His mom, Summers Afire who I raised, out of one of Judy Sinner’s foundation mares, was on **TNT™** and **Breeder Pac™** throughout her pregnancy, and the stallion GS Khochise+++// is owned by Dynamite distributor Betty Chapman-Radtke. Hemi has been raised on **PGR** and **TNT™**. I have also given him a little **Hiscorbadyne®** for extra joint support. From the looks of those long legs he’s going to be a big one!! Thanks Dynamite!
